

# TIPS AND TRICKS

## Tips for Potty Training a Boy:

*Little boys have a hard time aiming when they begin the Potty Training process. It is important to encourage him and help him do his best!*

- 🍃 First focus on teaching him to sit, then stand.
- 🍃 Set a training schedule.
- 🍃 Use stickers, charts, and/or other rewards as an incentive. (See "Rewarding Your Child" for more)
- 🍃 Motivate him with his favorite character/superhero underwear.
- 🍃 Drop 5 Cheerios™ into the toilet or potty seat and have aim him for them. Keep in mind, if using the toilet your child needs a step stool to insure they are at the right height.
- 🍃 Children like to copy their parents. Plan a weekend for Potty Training that is about "Copy Cat" and have your son follow dad around all weekend copying his toilet routine.
- 🍃 Stick to a routine.
