

# TIPS AND TRICKS

## Tips for Traveling with Your Child:

🍃 Prepare and plan more than ever before. You can never be over-prepared, especially when traveling with children.

🍃 Always make sure to have snacks on demand.

🍃 Pack extra outfits, you can never have too many.

🍃 Make sure to carry a Handcraft ChangeKit, it contains everything you need for life's little mishaps in a small, compact pouch. It includes wipes, a change of underwear and a pair of pants.

🍃 Staying organized is also super important. Knowing what you have and where you have it will make for a less stressful and more enjoyable trip.

🍃 Be sure to have entertainment for your child, whether it is a book, coloring book, doll, or tablet. This will come in handy when your child is bored or unhappy.

🍃 Make frequent stops to the bathroom throughout your entire trip.
